

Comments to FCC:

K-Love radio has become an integral part of my life. It encourages me and gives me hope in a world that is in dire need of hope and encouragement. The loss of this radio station would be a tragedy. Every day, not just locally, but all over the world, hurting people tune in, sometimes by accident, they are encouraged and lives are changed. I believe it is in the public interest that this station continue because with so much trash on the airwaves and T.V. we need this kind of programming. We need to have better choices and I believe K-love is a better choice.

Thank you most sincerely, Sabrina Smith
